AGEPOWER LIMITED

Mehome

Manager Energy Home

TECHNICALS

Rated Power : 3000W

Rated voltage : 196—250Vac

Rated frequency : 50/60Hz

Operating temperature range :

0—+40°C

Weight : 13KG

Dimensions(W/H/D) : 215/150/60mm

Cover material : Metal

Installation : Wall-mounted

Cooling concept : Natural

RF Frequency : 433MHz

No.28 Guanghui Road, Shiyao, Baoan District, Shenzhen, P.R.China.

Get free hot water from your solar!

MeBoost

Get
free hot
water from
your solar!

FUNCTION

The Solar MeBoost is designed to be used in conjunction with solar PV system, which surplus energy generated can be stored within a domestic hot water cylinder in the form of hot water. By monitoring the amount of energy being exported to the National Grid, the Solar MeBoost unit will divert energy into an immersion heater when the energy generated exceeds the amount of energy consumed within the property. Solar MeBoost controls the energy delivered to the immersion heater in proportion to that exported. The MeBoost displays the system and energy used information by LCD screen.

FEATURES

- Wireless sensor clamp - Minimal wiring and installation
- No need setting, works after installation
- Up to 3000W immersion heater capability
- 2 years manufacturers guarantee

BENEFIT

- GET FREE HOT WATER FROM YOUR SOLAR PV.
- Combined with solar power systems to reduce family electric bill.
- Increase your return on investment, reduced fuel and boiler usage.
